Dear BLM Coastal Plain,

Please read the article below: "As Glacier-Fed Rivers Disappear, One-sixth of Global Population Is at Risk". This is one of many big reasons that any development of fossil fuels must stop.

Suzanne Rich,

[1451 Flat Mountain Rd.](#)[Fairbanks, Ak. 99712](#)**As Glacier-Fed Rivers Disappear, One-Sixth of Global Population Is at Risk**

Dahr Jamail, Truthout: More than one-sixth of the entire global population lives in basins of glacier-fed rivers and depends heavily upon them for water for drinking and irrigation. However, a new study is showing that the rapid loss of glacial coverage is causing rivers to disappear, putting entire ecological systems and a large swath of the human population at risk.

Amy Goodman, Democracy Now!: Witnesses say Israeli soldiers shot 21-year-old Palestinian medic Razan al-Najjar to death as she ran toward the border fence to provide medical aid to a wounded protester. Since nonviolent protests began at the end of March, Israeli soldiers have killed at least 119 people, including 14 children. More than 13,000 have been wounded.

William J. Astore, TomDispatch: Did you know the US Air Force is working on a new stealth bomber? Known as the B-21 Raider, after General Doolittle's Raiders of World War II fame, it's designed to carry thermonuclear weapons as well as conventional missiles and bombs. However, the United States has no real need for new, stealthy, super-expensive, nuclear-capable, deep-penetrating strategic bombers.
