Dear BLM Public Scoping Team,

I respectfully submit for your review my opposition to the opening of the Arctic National Wildlife Refuge to energy exploration or any other resource extraction in this area.

Due to the wilderness attributes of this area, the large landscape benefits this refuge supplies to both habitats and wildlife, for its continued preservation into the future for American generations to come, and the need of untouched, unspoiled areas that can provide countless benefits to the future, I respectfully ask that as an agency that is beholden to the American people, that you not open this area to development of any kind. That it be managed as intended as a refuge for extraordinary wildlife and protected into perpetuity for the generations of Americans who will come after us.

The highest service you can provide to your country and via your agency, is to protection of this land.

Sincerely,
Shauna Potocky
