To BLM AK:

I am a responsible, voting, tax-paying US citizen.

There is no place for oil and gas drilling in the National Wildlife Refuge, now or ever.

This is a wild, pristine and sacred spot on our dear sweet marble-of-a-planet.

Please leave it alone; we do not need this for revenue or resources.

Stop the greed and lets leave this sacred land for our future generations.

Use common sense; do what is right, let ANWR remain wild and untouched.
