To: blm\_ak\_coastalplain\_EIS@blm.gov

I am absolutely opposed to the leasing plan for the ANWR for several reasons. The main reason is the tragic and irreversible environmental impact it will have on the fragile ecosystem as verified by the US Fish and Wildlife Service in 2015. Secondly, it makes no economic sense in this era of a glut in oil and natural gas with dropping prices. Third it contravenes the rest of the world's move toward investing in sustainable forms of energy in order to reduce climate change. Please deny this ill conceived leasing plan. It is not in the interest of Alaskans or of the rest of the nation.

:Although I live in Seattle, my family and I own land in Alaska so are vitally invested in the future of the State of Alaska

Sincerely,

Anita Peñuelas MD,MPH
