Dear Ladies and Gentlemen:

Industrial development has a purpose. But if by it's actions it destroys irreparably an entire ecosystem for a material that in 10 years will be considered 20th century, why be childish? We have enough oil resources to sustain us to the new civilization. We don't need oil and gas development in ANWR or the Arctic plain.

Please consider your actions on a daily basis.

Thank you.

Sincerely,

Russ Purvis
