Oil and gas drilling in this pristine preserve is MADNESS. It makes no sense whatsoever except to further show us what a thin skinned fool trump is. He's still steaming about Obama roasting him at the WHCD a few years ago. His vindictiveness knows no bounds. He must destroy everything that Obama tried to protect. Is there anyone out there who is willing to stop playing obscene politics with our precious and disappearing pristine habitats? All of you who support this proposal to drill and destroy will never be able to live down your oily legacy.
Shame on you all.

The Arctic National Wildlife Refuge is one of the greatest truly wild places left on Earth. It's sanctuary to some of the most diverse and magnificent wildlife in Alaska -- polar bears, wolves, musk oxen and vast herds of caribou -- and the oil and gas industry should not be allowed to trample its amazing landscapes and foul its pristine air and water.

The environmental impacts from all stages of oil and gas development, including seismic activities, leasing, exploration drilling and development must be fully considered. I urge the Department of the Interior to uphold all protections for the Arctic National Wildlife Refuge.

Sincerely,

Barbara Pikus
