Dear BLM staffers,

I vote. I pay taxes.

I am not an environmental activist. But I love my grandchildren and my soon-to-be-eight great grandchildren.

Please don't drill.

We don't need the income. We already have what one expert called "a massive surplus" of oil and gas leases and permits.

And we can't afford to threaten the environment for many generations to come.

Please don't drill.

Sincerely,  
Elizabeth Reis
