Good morning.

Please submit my public comment in regards to oil and gas inexploration and development in the Arctic National Wildlife Refuge.

Please reject any application that would allow oil and gas exploration and development in the Arctic National Wildlife Refuge.

Oil and gas exploration will destroy the fragile ecosystem of the Arctic Slope.

Please retain the Wilderness qualities of this area which will protect this area for the wildlife and local residents of the Arctic National Wildlife Refuge.

I vote no on oil and gas exploration in the Arctic National Wildlife Refuge.

Thank you,.  
Pete Reinhardt
