Dear Coastal Plain Leasing Program Eis,

I am writing NOT in support of the Bureau of Land Management's efforts to open a small portion (no measurement is given) of the Arctic National Wildlife Refuge (ANWR) to safe and responsible energy development. HOW safe is the spill in the Gulf of Mexico and the Exxon-Valdez spill?

President Theodore Roosevelt created most of our nation's national parks because he said ^Once they're gone, they're gone FOR GOOD!^ The native people living near there rely on hunting for the caribou and this area is their only breeding ground.

There are other methods of finding oil or getting what is below Alaska's surfaces that does NOT include destroying ANWR.

Sincerely,
Barbara Renton
