We do not need to destroy the Arctic National Wildlife Refuge, one of the greatest truly wild places left on Earth, to increase our gas and oil supply.

This sanctuary is home to some of the most diverse and magnificent wildlife in Alaska , and the oil and gas industry should not be allowed to trample its amazing landscapes and foul its pristine air and water when we have ample other sources of these fuels. I strongly urge the Department of the Interior to protect this precious asset by NOT approving drilling in the Arctic National Wildlife Refuge.

Sincerely,

Rina Rosenberg
