Please resist any attempt to drill in the ANWR. In a few years the trump administration will not have as much power, and people have spoken before to preserve ANWR in its native condition. ANWR's ecosystem is amazingly fragile. Any disruption would never be naturally restored. ANWR represents all that the frontier spirit of America embodies. We as Americans have lost so much of a sense of wilderness. National Parks are manicured and controlled places for visiting. Where, but Alaska, do we have uninterrupted wilderness.

For the sake of our grandchildren and the native cultures who depend on this land, please do not allow oil exploration in ANWR.

Instead let's move the country forward to renewable energy sources. This administration only wants so fill up the pockets of his Big Oil buddies.

ANWR cannot be replaced in any lifetime.

Thank you,

Jean Robbins
