I strongly oppose allowing pristine wilderness areas to be defiled. The Arctic National Wildlife Refuge is supposed to be a REFUGE, i.e. a place where wildlife is protected from the destructive incursion of humans. Instead of pandering to the fossil fuel companies and their preeminent lust for profit, our government should be investing in renewable energy which will not increase the atmospheric carbon dioxide overload. Above all, the Arctic Refuge should remain allocated to nature alone.

Thank you for your attention,

Claudia Reed
