To: blm\_ak\_coastalplain\_EIS@blm.gov

To the Bureau of Land Management,

The Arctic National Wildlife Refuge ANWR is a crown of American beauty - please don't permanent destroy this national treasure too and bend to the Alaskan Senator's proposal. it's not her's to do what she prefers nor is it for the few people whose voices at the top can be sometimes louder than the almost 400 million Americans who also have a say in this. We don't need to exploit this national natural treasure now above all, when the oil and gas company have a massive glut of supply and when we don't need more. We need to preserve natural resources and beauty for my own generation since older generations have taken too much away already.

Sincerely,

Rachel Reed, 25
