WHAT ARE YOU THINKING???????????

To disturb the landscape where the Porcupine Caribou calve in the Spring is a disastrous decision. Using the word "disturb" is even more ridiculous. For what? For money and more extinction to our wildlife and environment. Did you know that these caribou undergo the longest migration of any land mammal on earth? Enormous uncertainty for these caribou, one of the last healthy barren-ground herds in North America, if not extinction will happen if they lose this critical part of their ranging land surface. Did you know that the Gwich'in peoples and their communities have placed themselves strategically along the Porcupine Caribou's migration routes in order to sustain themselves from the seasonal cycles of this international herd. The health of these caribou directly impacts their livelihood and well-being.

How much more devastation are you planning to do to our biological and cultural wealth. We share this land, but it seems you wish it to be otherwise. Shame shame shame on you and those who believe that money is more important than people and the earth.

Sincerely, Lynne Rochon KOK 2TO

Kind regards,
Lynne Rochon
