The Arctic National Wildlife Refuge needs protection not destruction. Once it is gone, it cannot be returned to its current wild state. It's sanctuary to some of the most diverse and magnificent wildlife in Alaska -- polar bears, wolves, musk oxen and vast herds of caribou -- and the oil and gas industry should not be allowed to trample its amazing landscapes and foul its pristine air and water.

The environmental impacts from all stages of oil and gas development, including seismic activities, leasing, exploration drilling and development must be fully considered. I urge the Department of the Interior to uphold all protections for the Arctic National Wildlife Refuge.

Sincerely,

Mara Schoner
