To: blm_ak_coastalplain_EIS@blm.gov

To Bureau of Land Management,

We are opposing drilling in the Arctic as there are so many other places to drill that will not affect the wildlife that is present in that area. As the glaciers are melting the Polar bears and birds are having problems surviving, they do not need to have to contend with oil spills and roads being built in the wilderness. The Arctic National Wildlife Refuge is no place for oil and gas drilling, not now and not ever. It is a place that needs to be preserved for our children and grand children. Thank you for listening to our concerns. Lars and Carolyn Saxegaard
