Interior Department Bureau of Land Management,

I oppose oil and gas activities in the Arctic National Wildlife Refuge and stand with the Gwich'in to demand that the Coastal Plain of the Refuge remain protected for future generations.

Rushing to sell off one of our most treasured public lands is irresponsible, reckless, shortsighted, and counterproductive.

Oil and gas leasing is, ultimately, a dead end and is contributing to the climate change which threatens the very existence of our species. The Administration needs to comply with all the important legal protections that are in place to protect caribou, water, subsistence, and other sensitive resources of the Coastal Plain, and to, ultimately, protect all humans on the planet.
