Dear BLM

Do not allow drilling in the ANWR.

Precious wildlife will be forever harmed. This is OUR / the people's wildlife refuge, NOT to be given over to private interests in drilling.

Financial estimates of Treasury gain are very over inflated. See recent and historical lease-sale data from the North Slope.

Oil and Gas industry has a massive surplus of oil and gas leases.

Protect our NATIONAL: Wildlife Refuge. Do not sell any of it.

Sincerely,

Pat Siggs
