To the Interior Department,

I am a concerned citizen who is adamantly opposed to the prospect of oil companies exploring/drilling for oil in one of the earth's last great wild places. It's truly time to stop exploiting the environment for short term gains. Help our country lead the world in the creation of cleaner, less impactful energy sources. Americans will pay more for petroleum, just as we do for medications from the healthcare industry. Greed does not foster good policy. Drilling in the arctic will not help this country over the long run. It will only make the rich...richer.

Thank you for being good stewards of America and not allowing the drilling leases to proceed.

KC Sheehan
