It is time we stop giving the fossil fuel industry free reign over our land and water. We need renewables. They know it, but just keep pushing. Everyone knows we are facing global warming and that we need to stop burning fossil fuels. Those who choose to close their eyes to this are climate liars and we need to stop them.

The Arctic National Wildlife Refuge is one of the greatest truly wild places left on Earth. It's sanctuary to some of the most diverse and magnificent wildlife in Alaska -- polar bears, wolves, musk oxen and vast herds of caribou -- and the oil and gas industry should not be allowed to trample its amazing landscapes and foul its pristine air and water.

The environmental impacts from all stages of oil and gas development, including seismic activities, leasing, exploration drilling and development must be fully considered. I urge the Department of the Interior to uphold all protections for the Arctic National Wildlife Refuge. Start caring about our nation and the earth for a change.

Sincerely, R.Sheets
