Dear Bureau of Land Management,

PLEASE, PLEASE read and listen to what Audubon is saying about drilling for oil and gas in the Arctic National Wildlife Refuge. For 30 years I have been personally writing Congressmen to vote against any drilling and harm to the environment there. I even lobbied then Sen Lowel Weiker, Chr. of the Energy Comm. about it.

This action should never have been attached to the Tax bill!

I strongly oppose efforts to develop an oil and gas program in Alaska. The Refuge should remain a place in America's Arctic for birds and wildlife seeking refuge from the pressures of climate change and development. The Department must carefully collect the science and consider these issues, which clearly indicate why an oil and gas program does not belong in the Arctic National Wildlife Refuge.

Sincerely,
Deb Sterling
