Scoping for this project should include the effect on the native caribou population, as well as other wildlife, including Polar Bears, Grizzly Bears, Wolverines, and Musk Oxen. The impact on fisheries should also be included. I am headed to the Arctic Wildlife Refuge on June 22, 2018 to travel on four different rivers via packrafts and am excited to experience the area. Thank you for the opportunity to submit comment.

Sincerely,  
Richard Stout
