Dear Bureau of Land Management,

I firmly oppose development of an oil and gas program in the Arctic National Wildlife Refuge. The Department of the Interior must objectively evaluate the impacts at every stage of energy development on the Refuge's wildlife, water, subsistence, and other values for which it was created. The Trump administration intends to expedite the review process and hold lease sales by next year. This rush to judgment will not allow for the full analysis required under the law. Your Department must meet its obligations to responsibly steward one of the crown jewels of America's National Wildlife Refuge System.

Sincerely,  
Suzan Syrett  
Menlo Park, CA 94025
