I am writing as a concerned citizen and voter. I would like to register my deep sorrow in learning that Lisa Murkowski was able to "slip" a provision into the tax bill that will allow drilling in the ANWR. We have been down this road before and to undermine the native people and the majority of Americans seems dishonest and shameful.

I am hoping that you will truly listen to the comments sent by Americans and not ignore the wishes of constituents.

Our natural environment is important and does supply a rich source of income through tourism and other industries. To deplete a pristine area for short term gains is not in the best interest of resources or mankind. At some point we must think beyond big oil and set aside untouched land for generations to marvel in.

Thank you,

Kathleen Chartrand
