To: "blm\_ak\_coastalplain\_EIS@blm.gov" &lt;blm\_ak\_coastalplain\_EIS@blm.gov&gt;

To whom it may concern:

As a taxpayer who has a vested interest in preserving the Arctic National Wildlife Refuge as it was originally intended to be, which is as a wilderness area and refuge for a diversity of unique life forms, I am registering my opposition to proposals for accelerated and expanded oil and gas development in that area. Fossil fuels are already contributing to more turbulent weather patterns and the warming of our planet's atmosphere. The focus should be on cleaner and "greener" sources of energy and away from those that add to the rising temperatures and catastrophic weather events already in evidence on earth.

Respectfully,

Mary Strasser
