This is to formally submit my **opposition** to drilling in ANWR.

This work is unnecessary and unjustified, environmentally, economically, and strategically.

The entities that are supporting this work are motivated by personal and parochial interests, and not that of the Pacific NW or the Nation. This will not "make America great again." Drilling in ANWR is so 20th century, backwards thinking. Whereas, drilling in existing, permitted land tracts and renewable energy programs will support the "MAGA" agenda.

Respectfully,

Gregg Takamura
