I am against oil and gas drilling in the Arctic Refuge. I want the coastal plain to be preserved for the wildlife that frequent the area, especially the 200 species of migratory birds, the caribou and the polar bears.

I want the refuge preserved for the Native communities who rely on this area.

At this point in time the oil and gas industry has a massive surplus of oil and gas leases and permits.

It is not right or necessary to drill in Alaska's National Wildlife Refuge.
