To: blm_ak_coastalplain_EIS@blm.gov

Please count me as another American vehemently opposed to oil drilling in Alaska's Arctic National Wildlife Refuge.

- 1) this land belongs to the people of the USA, not corporations.
- 2) the large surplus of US oil and gas leases owned by the Oil & Gas industry negates the need for drilling in ANWR
- 3) the US Fish & Wildlife research concluded that irreparable damage would occur in the critical areas of ANWR should drilling proceed.
- 4) good sense, intelligence and science should be weighed as heavily as politics, preventing a the BLM decision to proceed with this irreverant plan.

Thank you,
Barbara Trafton
