To: blm_ak_coastalplain_EIS@blm.gov

To Whom it May Concern:

We write to stand with the 70% of my fellow America citizens who oppose drilling in the Arctic National Wildlife Refuge. This plan would be disastrous to wildlife and to the arctic ecosystem.

Moreover, drilling in the ANWR is a reckless idea at a time when we need to be moving away from fossil fuels anyway. Please do not allow those who currently want to drill to cling to outdated energy policies and force a short-lived and short-sighted effort to continue our dependence on oil.

Fossil fuels are not a viable long-term source of energy, and we should not be mortgaging *either* our economic or our ecologic future to a plan that would destroy this national treasure.

Please reject this plan, and let's all get behind alternative energies that are the economic future. Doing so would be better for both the arctic and for our economy.

Thank you,

Jim and Pam Toner
