To Whom It May Concern,

There should be no drilling in ANWAR. Period. The native people and the caribou they depend on deserve a healthy ecosystem. Despite all previous industry promises, the actual on-the-ground evidence proves that drilling damages the environment, and the arctic has a particularly fragile ecosystem.

Honor the needs of the native people, honor the will of the majority of Americans, honor the national treasure of having a pristine, beautiful, healthy arctic environment, and DO NOT ALLOW DRILLING in the Arctic.

Thank you.

Anne Tracy Winn
