To: "blm\_ak\_coastalplain\_EIS@blm.gov" &lt;blm\_ak\_coastalplain\_EIS@blm.gov&gt;

The Coastal Plain is the biological heart of the Arctic Refuge and provides important habitat for polar bears, caribou, muskoxen, and hundreds of species of migratory birds that travel from all 50 states and 6 continents. Oil and gas would harm the most important onshore denning habitat for threatened polar bears in the United States, further placing this imperiled species at risk. Oil and gas activities would also further exacerbate climate change, which is already causing temperatures in the Arctic to rise at twice the rate of the rest of the country. Oil and gas activities are completely at odds with the protection of the wildlife and other values in the Refuge, and with the urgent need to address climate change. Thank you for your time.

Sincerely,  
Sherri West

the greatest thing you'll ever learn is just to love and be loved in return
