Hello,

I'm writing to voice my opposition to the increased leasing of land on Prudhoe Bay in the Arctic National Wildlife Refuge. It is my understanding that the leases are for oil/gas exploration and drilling. However, these are very ecologically important places, with endangered species calling it their home. There are fewer and fewer undeveloped places left in our country, and increasing private and corporate leases in this area puts at risk the future of Alaska and our national legacy of wide open spaces.

I encourage you to please acknowledge the severity of the environmental impact drilling would cause and include opposition to it in your report.

Thank you,

Catherine Wilkins
