Don't do it!!! We need to protect this pristine wilderness area. We have so few left...it is far more important to our children and grandchildren to protect this area than it is to get more oil. Our future is finding alternative sources of energy. There is already too much CO2 in the atmosphere and harvesting more oil will just add to that. We need to leave those oil reserves where they are, protect the wilderness and focus on solar, wind, tidal, algae, etc.

Please....do not drill in the Arctic!

Sincerely,
Nancy Whittaker
