I do not understand why the Gov is trying so hard to ruin our planet. It is totally clear that you people don't care about our planet anymore. Killing wild life, drilling for oil any where that you can or want to. It is really sickening. We have Trump who is canceling ANY protection there was on the wild life and now we have you people wanting to drill for oil there. We had a chance to have all the oil we would ever need and Obama gave it back.....what an idiot! Now because of that we are suppose to stand by and let you ruin our planet.

You need to STOP and not drill
