Dear Sir/Madam,

The Arctic National Wildlife Refuge should not have been a point of bribery to pass the GOP tax plan.

As the Bureau of Land Management, you should know that our ecosystem is what will be the source of our survival as a human species, not selling off to the fossil fuel industry for pollution and short term profit for the CEOs and not the citizens. It is also a defilement to the Native American community living there.

If you want to have a lasting impact on the USA, then protect the Arctic National Wildlife Refuge, and you will be remembered well in history.

Yours,

Annie Bien
