To Whom it May Concern:

I saw notice that the BLM will be working on an EIS for the Coastal Plain area of the Arctic National Wildlife Refuge. The proposed oil and gas development directly conflicts with the purpose of a wildlife refuge. It was set aside decades ago because of its abundance of wildlife and unique wildness. I have worked as a facility engineer on the North Slope of Alaska. I understand that oil and gas is important for our state and our country. There are a lot of other prospects to develop in Alaska for oil and gas, let's leave an area designated as a wildlife refuge alone.

Thanks for your consideration,
