Dear BLM,

I want to let you know that the Arctic Refuge is no place for oil and gas drilling!

It is one of the last beautiful places that hasn't been over run by people and our activities.

We should not be drilling for more fossil fuels, we should be exploring other avenues that don't affect climate and CO2 production.

I don't want to trade this fantastic land away to greedy exploitation and more extraction. I want my kids and grandkids to see wilderness.

This is a shortsighted stupid political gimmick and I will fight it as an American and citizen of this planet.

Very sincerely, Gro Anna Buer
