Why would we want to desecrate America the Beautiful? This is one more place that will end up being beautiful no more. Preserving the natural beauty of this country is more important than more oil and gas. Our money should be put into wind and sun energy sources.

The Arctic National Wildlife Refuge is one of the greatest truly wild places left on Earth. It's sanctuary to some of the most diverse and magnificent wildlife in Alaska -- polar bears, wolves, musk oxen and vast herds of caribou -- and the oil and gas industry should not be allowed to trample its amazing landscapes and foul its pristine air and water.

The environmental impacts from all stages of oil and gas development, including seismic activities, leasing, exploration drilling and development must be fully considered. I urge the Department of the Interior to uphold all protections for the Arctic National Wildlife Refuge.

Sincerely,

Katharine Lewis Brown
