Dear Official Administrators and Important Others

The Arctic is one of our great ,hitherto, unspoiled areas. Unique wildlife is to be found here and is already under threat by the fact of vast ice areas which are melting.

This is causing stress to wildlife: the iconic Polar Bear is already struggling. Who cannot be moved to care about the plight of such a majestic animal?

Other special creatures, the porcupine, the Caribou and countless flocks of migratory birds, the sealife know these untouched areas as home. The Peoples of the Gwich'in Nation call this area home and rely on the Caribou as essential to their living. Who are we to deny them?

We cannot disregard the needs of these Peoples and the wildlife who cohabit in this important site of scientific interest. To look after this area is in all our interests. We should not ruin the Coastal Plain for profit and we should not increase the damaging impact of these fossil fuel industries have on our planet.

In years to come we won't have the chance of retrospect, we will not know what damaging chain of events we caused.....the warnings are there aren't they?

DEPARTMENT OF THE INTERIOR Mail - [EXTERNAL] Arctic National Wildlife Refuge

I will never see this area but that doesn't mean that I don't want it o be cared for. The world is for all of us.

Thank you

Sincerely

C.A. Brain [Mrs] U.K.
