The oil and gas in ANWR is not worth destroying its ecological and environmental value!

- *The Arctic Refuge is one of our most treasured public lands and no place for oil and gas drilling and development.*
- *Do not allow the single most destructive attack on the wilderness, wildlife, and subsistence resources of a national wildlife refuge in modern history.*
- *The Coastal Plain is the biological heart of ANWR and provides important habitat for polar bears, caribou, muskoxen, and hundreds of species of migratory birds that travel from all 50 states and 6 continents.*

The push to extract resources from ANWR is a purely political one, not justifiable on any other grounds.

This is a national treasure that must be protected!

Thank you.
