Dear Sir or Madam,

I am completely opposed to leasing any part of the Arctic National Wildlife Refuge for oil or gas drilling. This land belongs to me and all other taxpaying American citizens. It is environmentally fragile and beautiful, and destroying this for short-term gains is incredibly wasteful. What we take from our children will be gone permanently, never to be used again. If we were having a tremendous energy shortage that was impacting people's lives, then it could make sense... but we don't! This is purely for corporate greed and short-term profits.

Please be a good steward of our land and our resources, and help us preserve what is left for our children and grandchildren.

Thank you,  
Janina Blonski
