Greetings,

I am 14 years old and I am writing to inform you that I am vehemently opposed to any and all fossil fuel development in the Arctic National Wildlife Refuge. In solidarity with the vast majority of Alaskan native communities I am calling on the BLM to halt all forms of oil and gas development in the Arctic National Wildlife Refuge. There should be no oil and gas leasing programs in America's last Great wilderness. Any fossil fuel development in this area would be a sell out to corporations and a betrayal of my generation.

Sincerely,

Joshua Wright, an American citizen
