REC-11

PROTECT THE ANWR

Strathmore

SAN DIEGO CA 920

13 JUL 2008 PM 2 L

Please do not jeopardize
one of our last remaining
pristine wild spaces for
short-term profit. As one of
the most critical onshore
denning habitats for polar
bear, an important calving
ground for caribou, and
sacred land to the Gwich'in
Nation, this land deserves
our protection. Please do all
you can to preserve this
amazing place and protect it
from oil drilling and corporate
greed. Sincerely, Jennifer Croft
2015
