The Bureau of Land Management
222 West 7th Avenue, stop #13
Anchorage, AK 99513

We are submitting public comment opposing oil and gas drilling in Alaska's Arctic National Wildlife Refuge.

The oil and gas industry has a massive surplus of leases and permits, less than half of Federal acreage under lease is currently producing.

Drilling cannot be done without harm to the surrounding environment. The web of roads, requisite infrastructure and noise pollution would cause irrevocable damage to one of the most sensitive and pristine places on the planet.

The US Fish and Wildlife Service concluded in 2015 that drilling in Alaska's Arctic National Wildlife Refuge will result in permanent and irreversible damage.

US Senator Lisa Murkowski reversed six decades of bipartisan efforts in Congress to protect the Arctic National Wildlife Refuge.

We oppose oil and gas drilling in the Arctic National Wildlife Refuge.

Sincerely,

Mr + Mrs Michael Estabrook
