While you may request that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments:

It is unethical to proceed with any plans regarding oil development in any area without consulting the peoples of that area, in their language, in their communities, and with plenty of time for them to understand the impact of plans on their lives. You must first discuss this with the Indigenous peoples of the Arctic. To do this any other way is ridiculous and unjust. Slow down, ask the Indigenous communities, and listen to them.
