Comments:

Any impact by oil And gas development in the Arctic Refuge is unacceptable. In an era of global climate change, we have no business further extracting oil. The human rights of the Gwich'in people must be upheld, this development would compromise the Gwich'in people's human rights and way of life, and collectively, would compromise our ability to live on this planet. My home is Alaska, I am a second generation Alaskan.

I Oppose All drilling in the Arctic Refuge.
