Dear Sirs,

I'm urging you to stop plans to drill
in the arctic refuge. This should not
under any circumstances be done.

The oil and gas industry has a large surplus
of oil and gas leases and permits. Less
than half of federal acreage is now producing.

The U.S. has a glut of oil. It makes no
sense to disturb this beautiful pristine area.

This land needs to be preserved as it has
been for decades. Doing otherwise is selling
part of our soul.

Sincerely,

Margorie Fillion
