THIS POSTCARD IS FOR:

I am OPPOSED to an oil & gas leasing program in the Arctic National Wildlife Refuge. The Arctic is one of the most diverse, pristine and environmentally important Regions on earth, and home to many marine animals. Oil drilling jeopardizes this sensitive ecosystem. And there is no safe way to clean up any oil spills in sea ice, thousands of miles from civilization. It can't be done safely! NO to oil and gas leasing program within the ANWR!
