Hon. Lisa Muckowski

Re: ANWR and the EIS
Dear Senator Muckowski,

During my 46 Fairbanks years I was personally involved with pursuit of a Porcupine Caribou Treaty as Program Director for the Tanana Chiefs Conference. This during the early 1980s.

This responsibility took me to a number of communities in Yukon, meeting with local indigenous persons over their concerns for the health of the Porcupine Caribou.

Today with the leasing plans for the Coastal Plain, I have great concern for the interests of our Canadian neighbors' interests in the future of these Caribou.

I feel a Canadian Consideration needs more emphasis but lacks this in the assessment of impacts of proposed development.

James Kowalsky
