

Patricice A Parkhurst 6/15/18
362 Co. Rt 51
Mexico NY 13114

I Strongly oppose any
oil & Gas development on the
Coastal plain of the Arctic
National Refuge -

I am a mother of two and
a grandmother to one little girl.
If any of you look into
your children's + Grandchildren
eyes - please look deep into
your heart - and decide
what is the right thing to do
for them.

There are an endless list
of facts that support the
opposition of opening up these
coastal plains - endless
devastation that will never -

ever recover.

Selling "our" public lands that are supposed to be protected - to line the pockets of those pushing for it in Washington and the companies that will do the crime of destroying forever this precious Serengeti.

What about the Gwich'in people?

What about the 200 species of migratory birds, the porcupine Caribou and of course the polar bears that are already affected by climate change?

What about the Endangered species act?

What about the Marine Mammal Protection act?

You have the opportunity to be the only right thing to save the Arctic

"It is horrifying that we
have to fight our own
Government to save the
environment"

Ansel Adams

If you really think the
environment is less important
than the economy - TRY
holding your breath while
you count your money!

Who Profits? Not the
American people - in any way

Dig deeper deep and do
the right thing

Thank-you

from a regular American
who pays taxes

Patricia Forthurst
